

## REPUBLICAN WHO REPUDIATED FDR WINS ELECTION

### FISK DEFEATS DEMOCRAT IN RHODE ISLAND

#### Newport, R. I., Elects Republican As Mayor

(By The Associated Press.)  
A republican vehemently on a "repudiate Roosevelt" platform clung to a steady lead over a pro-new deal democrat last night in Rhode Island's special congressional election.

It was widely predicted at the last ballot box test of the president's popularity since last November.

Charles P. Risk, republican, expanded his advantage over state treasurer Antonio Price, democrat, as the half-way point was passed in the vote counting.

Seeking a house seat vacated by a democratic congressman who was named to the Rhode Island supreme bench, Risk led Price by 35,043 to 28,886 with 90 of the 112 precincts in.

The fashion report of Newport, R. I., installed a republican mayor, Henry S. Wheeler, by more than 1,000 votes.

Political interest centered also in Mississippi's lively gubernatorial race, in which the name of Senator Long (D-La.) figured, and in Virginia's democratic primary for three seats.

Meanwhile returns from more than half the precincts in Kentucky's democratic gubernatorial primary of last Saturday assured a run off between Thomas S. Rhea and A. B. (Happy) Chandler, the state's lieutenant-governor. Rhea led Chandler by a few thousand votes, but lacked a majority in the five-cornered race.

In Mississippi, fragmentary returns gave a slim early lead to High L. White, millionaire lumberman, over Paul B. Johnson, former member of congress. There was dispute over who, if anyone, Senator Long was backing in the five-cornered race, but he was quoted as saying that there should be no runoff.

## TRIGGER SQUAD IS ORDERED TO GET FERNEKES

### Told To Shoot To Kill First, Investigate Afterward

Chicago, Aug. 6.—(AP)—The fugitive Henry J. (Midget) Fernekes, "public enemy" of a decade ago, won dubious recognition from the Chicago police department today when a "shoot-to-kill" squad was organized in his name.

Headed by Sgt. Andrew Aitken, who once arrested the diminutive gunman and knows him readily by sight, the "trigger squad" was ordered by Chief of Detectives John L. Sullivan to "shoot to kill first and ask the questions afterward."

Three other sergeants—Leo Anderson, Thomas Brown and Timothy Donovan—all crack shots, were assigned to the special detail which will attempt to ferret out Fernekes in his known Chicago haunts.

The "midget" convicted robber and accused of several killings, escaped from the Joliet penitentiary Saturday by walking out of the interview room in civilian garb which he somehow obtained. Four penitentiary guards were ousted subsequently, accused of "gross stupidity" in failing to detect the break.

The "trigger squad" was relieved of all duties except the assignment of "getting Fernekes." Sergeant Aitken, terming the "midget" "the smartest criminal ever arrested by the Chicago police department," admitted little was known of Fernekes' customary activities "between jobs."

"He operates as a lone wolf," Aitken said, "that is, he'll link up with a mob, invariably all 'wanted' men and desperate, and lead them on some big job. But as soon as the job is over Fernekes is through with them. He shakes them off and goes his way. On his next job he'll be heading an entirely new gang. And he sticks strictly to bank holdups and other big things."

John C. Murry and C. A. McCune, employees of a roundhouse which was raided today by robbers who made off with two tanks of oxygen and one of acetylene, were unable to identify Fernekes from his pictures as a member of the mob.

Deputy Chief of Detectives Walter Storms said the "midget" was "never a safe man," and would have no use for the gas. Storms expressed the opinion Fernekes was in hiding, rather than preparing for new forays immediately.

John C. Murry and C. A. McCune, employees of a roundhouse which was raided today by robbers who made off with two tanks of oxygen and one of acetylene, were unable to identify Fernekes from his pictures as a member of the mob.

Treasury redemption experts got busy and pieced together the remains. They announced today they would verify Walcher's claim and that he would be repaid in full.

## OTTO F. AKEN IS EJECTED FROM OFFICE

### 8 Men Swing Sledge Hammers To Batter Down Door

Chicago, Aug. 6.—(AP)—The physical siege in the county building was ended tonight when eight men, swinging sledge hammers, battered down a door and ejected Otto F. Aken from the county superintendent of schools' office where he had barricaded himself against his rival, Noble J. Puffer.

There remained, however, the legal logjam, in which Aken had instituted quo warranto proceedings to force Puffer to prove by what right he is entitled to the superintendent's position. Puffer was elected last November, defeating Aken, but the latter has declined to "retire."

The battering ram squad appeared in the outer room of the superintendent's office, where Puffer was ensconced. In the inner sanctum, Aken had sat out the night, refusing to give up physical possession of the office despite Puffer's invasion.

Six men, who had climbed into Aken's stronghold through a window were with Aken when the eight strong "arm invaders" battered down the door. Aken had just remarked to a reporter, "They won't catch me asleep. I'm the superintendent and I'm going to stay here."

The invaders stormed the inner office and, when some of Aken's followers refused to leave, dragged them out. Aken himself put on his hat and left after Puffer walked in and declared no records or other appurtenances of the office could be removed.

Puffer, who had followed the sledge swingers into the room, directed them in what to do, but when asked who the men were replied:

"I don't know who they are and I don't know a thing about it."

Fists were swung yesterday when Puffer arrived at the office to be "inducted" amid a bank of flowers. Neither of the principals was involved in the melee, but their retainers took matters seriously and pushed each other around.

Aken then locked himself in his private office, equipped with a bath, and sent out for three chicken pies to fortify him during the siege. Puffer retaliated by cutting off a telephone connection to the inner room and getting down to work with "business as usual."

Both spent last night in their respective quarters, napping as they were able, and had announced they would remain there tonight. The sledge hammer coup, however, appeared to have obviated any further need for the siege.

## STORM TROOPS TO LEAD FIGHT AGAINST JEWS

### Brown Shirts Parade In Several German Cities

By A. D. Stefferud  
Associated Press Foreign Staff  
Berlin, Aug. 6.—(AP)—Remnants of the once powerful brown-shirted storm troops, it became apparent tonight, have been chosen to carry on an important part of the Nazi campaign against "saboteurs."

Following parades of brown shirts in several cities, including Berlin, the newspaper Der Angriff announced: "The storm troop has jumped into the fight against Jews, political Catholicism and reactionaries."

It printed a picture of a truckload of brown shirts bearing the placard "we will permit no sabotage against Der Fuehrer's reconstruction."

The storm troops, whose diminution beginning July 30, 1934, during the "blood purge" for a while almost seemed to foreshadow their complete elimination as a political factor, are more in evidence than ever. For weeks their patrols have carried ironic signs depicting a priest baptizing a Jew.

An authoritative source said today he believed the Nazi campaign to obstruct foreign correspondents was caused by their fear of losing the 1936 olympic games.

Should the games be taken to some other country it would be a severe blow to the Nazi regime both economically and politically. Intense preparations have been made for them and officials expect an influx of foreign currency next year to stimulate business.

## ETHIOPIA HAS ORDERED MEN TO FRONTIER

### Italy Will Have One Million In Uniform By October

By A. E. Stuntz  
Associated Press Associated Staff  
Rome, Aug. 6.—(AP)—Premier Mussolini ordered 75,000 more men to arms today in answer to reports Emperor Haile Selassie has sanctioned the concentration of 60,000 Ethiopian warriors on Italy's East African frontier.

About 45,000 of the 75,000 called to the colors will go to cantonments for intensive training. They bring the total of men in training, already sent to East Africa and native divisions recruited there to an estimated 235,000.

The long awaited "communiqué No. 9" announced the summoning of two regular army divisions, a volunteer fascist blackshirt division and creation of two replacement divisions, was a consequence of "heavy Ethiopian mobilizations."

Italy's military program, well informed circles said, envisages a million men in uniform by October for service in East Africa and to maintain preparedness at home.

Unofficial reports said Il Duce has quietly sent to East Africa or created there other battalions.

Announcement of the mobilization was withheld until after the League of Nations council session of last week.

Great Ethiopian military preparations also at under way, a dispatch from Addis Ababa to the newspaper Popolo D'Italia, said today. It reported a "great concentration" of troops near the frontier.

There were renewed attacks in the press today upon Great Britain because of its attitude toward the Italian-Ethiopian quarrel.

The authoritative writer Virginio Gayda in the Giornale D'Italia said Il Duce's military program in East Africa is "inflexible." He attacked both the league and Britain.

The Giornale D'Italia said the government had received applications for enlistment from over 10,000 Italians living abroad.

Dispatches from Naples indicated four transports would embark within the next few days carrying more than 2,000 troops, an equal number of skilled workmen, modern tanks and other war equipment to East Africa.

## Birthday Greetings

The City of Waverly, Morgan county's second town in size, today begins its Centennial celebration. An appropriate program has been prepared, harking back to the days when the county was young and Waverly was but a mere village with a few houses, store and blacksmith shop.

Waverly citizens are proud of their town. The county is proud of Waverly. Jacksonville and all the county extend congratulations to the little city that this week is marking an important milestone in its history.

## The Romance of an Idea

Twenty years ago, an idea was born in the mind of a Morgan county farmer. The idea was that of determining which were the best machines for use on farms. The idea was born to Milford Rees.

Ideas come and go but the idea of a tractor met remained firm in the mind of its progenitor. There was a lot of work connected with the idea, securing competitors, securing manufacturers who were willing to put their machines into competition against other machines, providing facilities for the competitors when they were assembled and last of all, providing a crowd so that the expensive means of demonstration would yield some returns.

The job was big—but the man behind it was just a little bigger. His original idea remained firm through the first meet, through a lapse of a few years, and now for ten years the Rees Station tractor meet has been an annual affair, with the crowds becoming larger each year, and the number of events increasing to encourage better plowing and to interest more persons.

There wasn't much romance in the idea for the persons connected with the meet—they were faced with cold hard facts. But to the people on the

outside the idea has "stuck." It pulls business men away from their counters and desks, it takes farmers from their fields and wives from their duties around the homes.

The romance of the idea is for those persons on the outside.

## The One Solution

According to an article in The Index, federal expenditures during the past four fiscal years have totaled \$25,000,000,000—a sum which represents more than 80 per cent of the wartime expenditures of 1918 and 1919, and which is about equal to the total of all federal expenditures from 1789 to 1914.

The inevitable result of that spending has been increasing federal deficits, followed by an astounding expansion of the federal debt. The deficits started in 1931, with a little less than one billion dollars and rose steadily until 1935, when that year's deficit (fiscal year ended June 30) reached \$3,500,000,000. And the gross federal debt, since 1930, has increased \$12,000,000,000—more than 75 per cent.

As the Index says, a basic question raised by this program "is the extent to which present spending can be continued without threatening the financial stability of the government." There is no relief in sight—the 1936 deficit will be as great or greater than any of its predecessors. More spending on a vast scale is contemplated.

And for every dollar the Treasury is taking in, in spite of abnormally high taxes, two are going out.

Some friends of emergency spending say that the whole problem can be simply and easily solved by inflation—in other words, by turning the printing presses loose to issue currency without backing. The whole history of government finance points to the tragedy of that. Inflation cannot be controlled—once it takes the wheel, it runs away with the driver and collapse of the nation's credit follows.

The only sound solution is to change our policy before it is too late—to trim our financial sail to meet the wind. Only by balancing outgo with income can the government maintain its solvency and integrity.

## The Cruelty of Life

It's a hard-hearted world. Ask the little boy who's been told he can't have a nickel for a lollipop, the little girl who wants to go to the dance with her older sister, and the youth whose first poem has been rejected.

And ask Truth, Delight, Charity, Star, Mary Magdalene Love and Joy. They know. For a hard-hearted New York Board of Elections has refused to allow those names on the voting rolls.

Now Truth, and Charity, and Mary and Joy were very much put out about this. Weren't those the names they adopted when they "went to heaven" with Father Divine, whom so many Harlem Negroes identify with God? They were, and you'd think even a Board of Elections would see it, and sympathize and understand.

But no. If they want to vote, Truth, Charity, Mary and Joy will have to write themselves down as just the ordinary folks they used to be before Father Divine came into their lives.

And that is the way that life, in the person of parents, or teachers, or policemen, or election boards, is continually sneaking up to remind us that we are what we are more often than what we'd like to be.

## No Place For Criminals

The Department of Public Welfare has sent out a request to the judges of the state not to send to the St. Charles School for Boys seasoned offenders or those who have committed major crimes. It is the contention of the Department—and a right contention—that old offenders or seasoned criminals should not be allowed to associate with boys who have committed only petty offenses.

"We are anxious to provide an institution for just such boys as St. Charles was designed to care for," authorities said. The cooperation of the courts is needed and should be obtained in this matter.

Most of the boys who are sent to St. Charles constitute "material" which is worth saving. Throwing them into association with delinquents for whom there is little hope is making the future of the petty offender less bright, and to all intents and purposes, pointing him to a career of crime.

## WILL ROGERS SAYS

To the Editor of the Jacksonville Journal  
San Francisco, Calif., Aug. 6.—Folks who live down around Los Angeles who got to some town every once in awhile. We got the numbers down there but San Francisco has got the class. This town is going through a "wild orgy" of bridge building. You know how a town is when it decides to pave, well, San Francisco is that way with bridges. You daren't leave a few buckets of water out over night or somebody will build a bridge over it by morning.

San Diego has done so well with her fine fair this summer that this town is going to hold one. When folks minds turn to fairs and expositions, why it's a sign of better times.

## One Project Ready For Submission to Relief Works Body

Vacation in State Highway Office Blocks Efforts to Get Tax Fund

One project, the Marion street sewer, is ready for submission to the Works Progress Administration, City Engineer Kenneth Stapleton said Tuesday and others are in the process of being prepared.

The Marion street project, designed to remedy the situation at the Bethel A. M. E. church where water has been backing up in the basement, will cost the city approximately \$200 for materials. No labor has been figured in the cost.

The project calls for digging a sewer 300 feet long from in front of the church to South West street, where it will connect with the sanitary sewer. The present sewer, the city engineer has found, has an uphill grade.

Plans for resurfacing the square have been held up temporarily until the city highway committee, under Alderman F. R. Mathews, confers with Ernest Leiberhmann, director of the highway department, regarding that and obtaining Motor Fuel Tax money for the purpose of filling East Chambers and Doolin avenues. Leiberhmann at present is on his vacation and will be gone for another week.

Engineer Stapleton began work today on figuring the yards of concrete and dirt to be moved, and the cost of filling up the Greek theater. Work on this project, however, is not expected to advance rapidly because a suit, filed by the Farmers State bank against persons who signed notes to obtain funds for the construction of the bowl, has not been acted upon in the Morgan county circuit court.

## Birkhofer Holds Cubs to 4 Hits But Freak Plays Give

Bruins Tough Battle 2 to 1

Chicago, Aug. 6.—(P)—Wee Roy Henshaw, who makes a habit of beating the Pirates, did it again for the Cubs, 2 to 1 today, but it took a pair of errors on a freak play to give Chicago the victory that cut a full game from the Giants leading margin.

Ralph Birkhofer, Pirate southpaw, allowed the Cubs only four singles, half as many hits as Henshaw yielded, but he brought about his own downfall in the third, when the Cubs scored both their runs.

After Bill Jurgens scratched a single in the third, Henshaw tried to bunt and passed to Birkhofer. The pitcher, apparently with the idea of trapping Jurgens and getting both runners, intentionally dropped the ball. But he got confused and when he picked it up, heaved it past first base to the right field stand. By the time Suhr got it, Jurgens was nearing third. Suhr threw all the way to the left field boxes and Jurgens scored.

Henshaw, who reached second, scored on Galan's sacrifice and Herman's fly.

The Pirates scored their lone run on Bud Hays' homer in the seventh. Pittsburgh AB R H O A E.

**Dodgers Waylay Giants 3 To 1**

New York, Aug. 6.—(P)—The Brooklyn Dodgers knocked a full game off the New York Giants lead in the National league today as long Tom Zachary, the ancient southpaw, neatly scattered 11 hits to win his seventh victory of the season, 3 to 1.

With the Chicago Cubs beating Pittsburgh 2 to 1 the Giants lead was trimmed to three games.

The Giants had scoring chances in almost every inning but Zachary was at his best with men on bases, leaving 12 stranded. The only run scored off him was due to Jimmy Jordan's error in the sixth. The shortstop booted Bill Terry's grounder, and Bill scored after Hank Leiber's single and Travis Jackson's outfield fly.

Bud Parmelee pitched out of turn seeking his 13th victory of the campaign, and he lasted but seven innings. Tony Cucinello nicked him for a home run for the Dodgers' first run in the second, while Bud Boyle's single drove in Len Korneck with the second in the fifth.

Allyn Stout replaced Parmelee and gave up the Dodgers' final run in the eighth when Boyle again singled, stole second, and scored on an infield out after Joe Stripp singled.

Zachary's victory, his second over the Giants this season, was the ninth time they have been beaten by southpaws.

**Braves Blank Phillies 4-0**

Philadelphia, Aug. 6.—(P)—Bob Smith held the Phillies to three hits today as his Boston mates scored a 4-0 triumph over the local team.

For seven and one-third innings the Braves twirled pitched a perfect game, not allowing a man to reach first base. With one out in the eighth, Dolph Camilli hit a clean single to right field.

Walter Berger's 23rd home run of the season with Randy Moore on first base and one out in the third inning gave Boston their first two runs and a triumph. Before the inning was over two errors by Haslin and a scratch hit by Mallon gave the visitors two more.

Bowman, who relieved Blvin in the fourth, permitted the Braves only three hits the rest of the way.

## Oilers Win In Last Inning By 6 To 5

Fronabarger's Single Drives In Winning Run Of Tight Game At H. S. Field

Coming to life in the last three innings, the Wells Oilers avoided defeat in their first start in the second half of the T.V.-Light league season Tuesday at the high school field, Fronabarger's single with one down in the fifth driving home the run that beat the Illinois Power & Light team 6 to 5.

The Gasmen, taking advantage of loose fielding, pushed over a run in the first and a pair more in the third to take a three run lead. The Oilers got two men on in the third, however, C. Rush moved them up with a sacrifice hit, and McNamara walked. Leo Shay punched out a double to send three runs scampering over the plate, tying the score.

The Gasmen went out in front again in the fourth, scoring two runs in a single, a walk and an error. The Oilers took them back with an error, followed by Holtschlag's triple and C. Rush's single, and then held the Gasmen without a run in the fifth. J. Rush was hit with a pitched ball, stole second and raced home on Fronabarger's single to clinch the game.

**Four Hit Pitching And Fast Fielding Stops Indexes Without Run**

Like Flynn shut out the Smith Indexes, one of the teams in a position to lay claim to part of the first half championship if Myers, Brothers can turn back the Morgan Aces in a game to play off the first half schedule tonight, when he allowed the Indexes only four safe blows and his mater sent down Indexes runners almost as quickly as they got on base to win a 7-0 decision.

The Clothers on the other hand, pounded Ray Zell for eight safe blows, scoring in every one of the four innings. They took advantage of three errors to pile up their winning margin.

An error at third, followed by "Quack" Burkery's double in the first brought one run. Generato's single, an error in left field, and singles by DiCenso and Day brought in three more runs in the second, and Blesse and Generato singled and scored on DiCenso's double in the third. Burkery scored in the fourth on his single and a pair of five to center.

Flynn shut out only four men, but he had stout support back of him. Zell got only two strike outs.

## Cards Star Pitcher Holds Cincinnati Safe and Wins Eighteenth Game of Season

St. Louis Aug. 6.—(P)—Dizzy Dean, serving in a relief role, won his 18th victory of the season and the fifth in a row for the world champions by knocking a home run with two on the bases in the tenth inning of the Cardinals' series opener today with the Cincinnati Reds.

The third Red Bird hurler to see action, Dizzy went to the mound at the start of the seventh and held the Reds hitless for the last four innings. With the score knotted at 3-all in the tenth, Bill Delancey got a lucky double when Goodman failed to see his fly to right field and Kampouris missed the catch after a long run. Charley Gilbert was purposely passed and Leo Durocher sacrificed. Dizzy then broke up the game with his circuit, clout into the left grandstand.

Delancey knocked a home run in the right pavilion in the fourth. Cincinnati AB R H O A E.

## Grundy and Hamilton To Talk Bond Issue With City Attorneys

To Investigate Possibility of  
Obtaining Issue Under  
Legislative Act

City Attorney Ray Grundy and former treasurer Carl F. Hamilton left the city last night for Chicago where on Wednesday they will take up with Ames Watts, attorney affiliated with the firm of Chapman and Cutler, bond experts, the possibility of floating a bond issue under the

special act of the state legislature, passed under the sponsorship of Rep. Hugh Green, of this city.

The proposed bond issue, approximately \$100,000, is sought for the purpose of securing enough money to pay off bonds issued against special assessments, and represents the approximate amount of funds lost by the city in the failure of the Ayers National Bank.

During the 48th general assembly, Representative Green was successful in getting a bill through the state legislature which made it possible for the city to issue bonds for \$125,000, without adding the expense of a special election to the costs of the issue. The measure, passed when the late John J. Reeve was mayor of the city, was not utilized by the Reeve administration, which soon retired, nor during the Walright administration which followed.

A special audit of the special assessment accounts during the Walright administration determined the amount of money that had been collected for the purpose of paying the special assessment accounts. During the Walright administration first steps were taken to clear up the situation when a settlement was reached with the Comptroller of the Treas-

ury of the United States, the receiver of the bank, and the administration, in regard to the city's funds on deposit in the bank when the institution closed, and special assessment bonds which it held against the city.

Following this settlement it was determined by the administration that the city's losses in the bank failure would amount to about \$41,000. One ordinance, authorizing the issue of bonds up to \$125,000, for the purpose of clearing up this deficit, was passed during the Reeve administration but was never used.

City Attorney Grundy and the former city treasurer will discuss the possibility of floating a bond issue under the ordinance and the special act of the legislature. The two men will take with them a copy of the special act of the legislature and a copy of the city ordinance authorizing the \$125,000 issue.

## Find Stolen Wool In Morgan County; Four Under Arrest

Stolen Property Leads to  
Arrest of Local Man  
and Three Others

One Jacksonville man and three residents of the Girard community are under arrest in the Macoupin county jail at Carlinville in connection with the theft of 34 fleeces of wool which were sold in Morgan county.

Harry Mitchell of South Main street is said by officers of both Morgan and Macoupin counties to have admitted selling the wool to the Blakeman Produce Company at Murfreesville, but claims he did not know it was stolen.

Actual theft of the wool is laid to James Nunes and his son, Leonard Nunes, residing on a farm three miles west of Girard. They formerly lived in Jacksonville. The fourth member of the quartet under arrest is Robert Jordan of Girard, in whose garage the wool is alleged to have been stored for a week.

Sheriff Kenneth Woods and deputies have been working on the local angle of the case since Sunday night. They ascertained that the wool was sold in this county and traced a check said to have been cashed by Mitchell. Samuel Coultas, proprietor of a lunch room on North Sandy street, cashed the check for \$66.44, which the

produce company gave Mitchell for the wool, according to officers. Coultas now is wondering how he can recover his money.

### Arrest Local Man

Mitchell was picked up here Monday by police on request of Sheriff Alva Henry of Carlinville. He was taken to Macoupin county immediately, where the four men were expected to be arraigned in court today to answer various charges. Jordan probably will be accused of secreting stolen property.

Mitchell denied knowledge of handling stolen goods, but said he received \$5 for selling the wool for James Nunes, his father-in-law. Whether a charge against him will be pressed is not known, as he was booked for investigation at Carlinville.

Sheriff Henry and Chief Deputy Clarence Rasoar of Carlinville spent Monday afternoon here working on the Morgan county end of the case.

The wool was the property of Elmer Kessinger of near Girard. Kessinger came here Monday and conferred with the produce men at Murfreesville. He sold the wool to them and pocketed the money himself.

Coultas, holding a check for the alleged sale of stolen property, is thus far the loser. He has conferred with local officials to learn if there is any method by which he can regain his money.

Some of the money from the check, it is said, was paid down on a second hand automobile. Whether Coultas can lay claim to the machine has not been determined.

## Plumber Examiners Plan Meeting Soon

New State Law to Take Off  
City Statutes Ordinance  
Regulating Plumbers

The board of plumbing examiners, which is charged with the duty of giving examinations to plumbers and issuing city licenses to practice the trade here, will be called together in the near future to take up its business. The board is composed of Friedrich Engelbach, city health officer, John N. Deatherage, master plumber, and Carl Swanson, journeyman plumber.

The board, which has been inactive for a few years, was revived when the

state legislature passed a law which will go into effect September 1, regulating the plumbing trade by providing for examinations and license fees. Many local plumbers favored the local regulatory system because they will be able to take the examinations locally, and will not be required to go to Springfield for the tests.

The state law will repeal the city ordinance regulating the plumbing industry, and will require license fees be paid to the state. Fees paid to cities prior to the effective date of the state law will be credited to the plumbers, and payment to the state will begin when the city permits expire.

## Wheat Prices Are Two Cents Lower

By Franklin Mullin

Associated Press Market Writer  
Chicago, Aug. 6.—(P)—Partly in  
sympathy with a sharp break in corn  
futures prices, wheat dropped more  
than two cents a bushel from early  
highs today despite the influx of un-  
favorable crop reports.

After initial firmness on early  
strength in Liverpool wheat, buying  
power here dwindled and rather gen-  
eral liquidation ensued with some of  
the selling attributed to profit takers  
and those who would stop losses.

Wheat closed 1 to 1 1/2 cents below  
the previous finish, September 90 1/2¢, and  
corn was 1 1/2 to 2 cents off, September  
75 1/2¢, new corn crop deliveries at  
the lowest level in more than a year.

Some of the wheat market's nerv-  
ousness was in sympathy with extreme  
weakness in the corn belt with pros-  
pects of greater yields and reports that  
much of the damaged wheat might be  
used for feeding purposes were con-  
tributing influences that accompanied  
heavy offerings by professionals and  
commission houses in the corn pit.

Talk was heard that enlarged feed  
supplies will be available to farmers  
who have reduced livestock numbers.  
Soaring hog prices had little effect on  
corn but influenced the provisions  
trade, with lard futures jumping 17  
to 50 cents per hundred pounds, some  
deliveries at times gaining the maxi-  
mum permitted by trading rules for  
one day. Lard was the highest since  
July, 1926.

## Stock Market Close Ragged

By Frank MacMillen

Associated Press Financial Writer  
New York, Aug. 6.—(P)—Bullish ex-  
citement over the doubling of the gen-  
eral motors dividend seemed a little  
too much for the stock market today.

The drag of profit taking wiped  
the list quickly after an early up-  
surge by the motor giant and the finish  
was distinctly ragged. General mo-  
tors itself, and a few scattered strong  
items among the metals, sugars and  
specialties resisted the pressure fairly  
well.

Nearly as prominent on the down-  
side as General Motors was on the  
advance, Union Pacific weakened fur-  
ther on its recent poor earnings re-  
port for the six months. The stock  
lost 61 points at one time, but closed  
off less than 3. Its reaction was a  
restraining influence on other rails.

So great was the press of transac-  
tions in General Motors at the open-  
ing that transactions in the stock were  
delayed a half-hour beyond the start-  
ing gong and the assistance of gover-  
ning the exchange was required to  
set a price. Finally a bloc of 30,000  
shares, worth \$1,203,000, changed  
hands at 40 1/2, up 11 points to a new  
high for 1935.

Movement of the balance of the list  
was fairly narrow. As measured by  
the Associated Press average of 60  
stocks, the day's decline was 3 of a  
point, at 47 1/2, with losses fairly evenly  
divided among the various major  
groups. Oil shares sagged back and  
forth as traders sought to assimilate  
developments in the industry.

Jo breaks the engagement.

## Public Health Will Be Club's Project

### Mason City Woman Chairman of Health Program in Twentieth District

A health program including public health and child hygiene work will be part of the outstanding activities of the federated clubs for the coming year.

Officers in the Jacksonville Woman's club have received information from Mrs. H. O. Rogier, Mason City, district chairman, asking cooperation with other clubs, nurses, and doctors in several phases of the work in which the district chairman is especially interested. These activities will include: public health nursing service, since every community should have functioning a continuous well organized health program; a capable health chairman should be appointed for every club; diphtheria immunization and smallpox vaccination programs; the plans should be discussed not only with the officers of the medical society but with the supervising nurse, who will supply a special bulletin on how to organize these campaigns.

Pre-school age child examination and round-up as a program should be carried out in every community in cooperation with the P.T.A. Do not let a kindergarten or first grade child

enter school handicapped physically. The women of the Illinois federated clubs are asked to contribute to a fund for cancer control. Through this fund literature will be sent to communities where information is needed.

Reliable literature and interesting educational exhibits in all of these activities may be secured from the following: American Medical Association, Publicity Division, 535 North Dearborn street, Chicago; Illinois Medical Society, 185 North Wabash avenue, Chicago; or the State Department of Public Health, Springfield, Ill.
